

LUXAFLEX® QMOTION

Timing is everything.....

With a QMotion Timer Remote, blinds have never been so simple, or so smart. Thanks to easy programming, just enter your specific time needs, you can choose a more detailed schedule to perfectly match your lifestyle. After all, the single-channel, five button QMotion Timer Remote offers something for everyone:

- Six event settings so your blinds can be where you want them anytime, any day.
- Energy efficiency by allowing you to program blinds to lower when the sun is at its strongest.
- Added security by making your home or office appear occupied to outsiders.
- The environment you desire by controlling one blind or a group of blinds.
- Use of blinds as an alarm clock or any other time-based need.

QMotion is simple to program with any Windows PC. Take control of your blinds, with QMotion Timer Remote.
